

GROUND SERVICE

As you set off on your journey, we will try to make it as comfortable, easy and safe as possible. Aeroflot's quality service concept includes ground service for our passengers. We consistently strive to improve the quality of our services and expand their range.

Sheremetyevo airport handles most of Aeroflot's flights and our SkyTeam partners.

Russia's largest international airport, Sheremetyevo, is the hub for Aeroflot and its SkyTeam partners.

Premier Business Class is available on short-haul (under three hours) and medium-haul (three to six hours) flights. Seats in Premier class cabins offer comfort on short-haul and medium-haul flights. The back can be adjusted, for example vertically for convenient working during the flight, or backwards to turn the seat into a cosy armchair that feels just like home.

Aircraft performing long-haul flights have modern Full-Flat seats, an important benefit of which is the ability to transform the seat into a fully flat surface¹, which provides a perfect place to sleep and everything necessary for a good rest.

BUSINESS CLASS

ON BOARD

Aeroflot Business Class offers our highest level of comfort and individual service from the very first moment of travel and throughout the journey. Passenger space in the cabin can be adjusted to individual needs for reading, watching a film or having a rest.

IN-FLIGHT MENU

The diversity of Aeroflot's in-flight menu can satisfy even the most sophisticated taste. Aeroflot employs recognised haute cuisine specialists to create Business Class dishes. The Aeroflot wine list comprises the recommendations of professional sommeliers to ensure a good choice of wines and spirits.

ONBOARD ENTERTAINMENT AND CONNECTIVITY

Aeroflot aspires to make the flight both comfortable and entertaining for its passengers, making use of the latest onboard entertainment technologies and a multifaceted approach to the organisation of passenger leisure activities during the flight.

Meals and beverages are served in glass and porcelain ware with metal utensils

Free baggage allowance – 2 pieces, 32 kg each¹

96.52–190.5 cm seat pitch²

Modern onboard entertainment system³

SkyPriority Bonuses

Every season Aeroflot experts conduct extensive research and development of in-flight menus for each cabin, taking into consideration flight duration, season and specific passengers' needs. All in-flight meals are developed in line with the latest health and nutritional recommendations.

15 types of specialised in-flight meals¹

Renowned chefs and recognised haute cuisine experts

Aeroflot's in-flight entertainment programme is updated every two months and includes over 200 Russian and foreign movies, TV series and shows, a children's channel, news, sports and automotive programmes, music videos, music, audiobooks and popular games. Passengers can also track the flight in real-time¹ or view images from an external in-flight camera².
