OUR TEAM OF PROFESSIONALS

Aeroflot strives to surpass the expectations of its passengers. The Company's success is based on continuous professional development and self-improvement. To achieve this, Aeroflot has integrated an efficient personnel training system with established modern infrastructure.

As recognised by Russian and international civil aviation organisations and industry experts, Aeroflot operates the best training facilities for pilots and cabin crew in Russia and the CIS. In 2011 Aeroflot opened its own Aviation School, the first certified private aviation training centre in Russia.

Aeroflot won the 2015 and 2016 Randstad Award in the Best Employer in Transport and Logistics category.

Compliance with modern international standards and federal aviation regulations for personnel training.

Aeroflot employees undergo regular training and professional development courses every year.

FLEET

Aeroflot has one of the youngest aircraft fleets in the world. Aeroflot aircraft comply with the highest standards of safety, reliability and comfort.

The average age of Aeroflot aircraft is just 4.3 years¹.
